Jorge Moncada Carrera

FrontEnd Developer

User-centered developer dedicated to the delivery of unique, intuitive experiences that surpass expectations. Looking for a collaborative Team where I can contribute to innovative solutions while growing alongside driven professionals.

EXPERIENCE

FrontEnd Developer *at LionRig Studio*

April 2024 - July 2024 [Zaragoza, Spain]

● Managed the development of 2 projects, evaluating and implementing suitable technologies that optimized scalability and user experience.
● Collaborated closely with a small team to address their vision and needs into a functional and user-friendly web application.
● Adapted to new challenges by developing a custom internal web application for managing Unreal Engine assets in a virtual set.
● Advocated for and implemented clean code principles ensuring maintainable and scalable code.

System administrator *at Hiberus*

December 2021 - Abril 2022 [Zaragoza, Spain]

● Collaborated with multiple teams and communicated with clients in order to improve processes and reduce alert rates.
● Managed and resolved support tickets, prioritizing tasks ensuring timely and effective solutions.
● Created comprehensive documentation for alert protocols and troubleshooting procedures.

IT Technician *at Ecomputer S.L.*

April 2021 - June 2021 [Huesca, Spain]

● Communicated directly with customers in a fast-paced environment identifying and addressing their technical needs.

EDUCATION

Associate Degree in Development of web applications - *CPIFP Los Enlaces*

September 2022 - June 2024 [Zaragoza, Spain]

Intermediate Vocational Certificate in Microcomputer Systems and Networks - *IES Sierra de Guara*

September 2019 - June 2021 [Huesca, Spain]
